

Meeting Agenda - 14th March

Location: 6207

Date: 14th March

Time: 13:15

Facilitator: *Julia*

Secretary: *Florian*

Participants: Barnabas, David, Florian, Julia

1. Objectives

No issues preventing us to continue so far.

2. Reports

This was the first meeting. For more info, see *Discussion items*.

3. Discussion items

1. How do we do...?

We have...

- ...listed functional requirements, and ordered them by priority.
- ...made initial sketches on design.
- ...made a git repository.
- ...looked at some frameworks for reading meta-tags from images
- ...found a name: *hedgehog photo*

2. What to do...?

The plan for this week is to:

- look up how to work with branches in git
- get to know git better
- make some more design-sketches
- think about more functional requirements
- look at some more frameworks (eg read meta-tags)
- research about how to merge images in java (ie for our collage)
- RAD
 - Section 1
 - Section 2.1, 2.3.1 and 2.3.3
- write some use cases
- start sketching on UML
- gather questions for the meeting with the supervisor Thursday morning

4. Outcomes and assignments for Wednesday

1. Julia should.... work with git and do research on frameworks

2. Barnabas should... work with git and research on frameworks
3. David should... work with git and design-sketches
4. Florian should... work with git and research on frameworks

General tasks for this week are:

- Design sketches
- Use cases
- RAD

Use google docs for documents etc.

5. Wrap up

Next meeting is on Friday (meeting with supervisor is on Thursday 8 AM).

Svenska anteckningar från mötet:

inte dropbox! google docs ftw!

- klara med funktioner
- bestämma ett namn - idag?
- rita upp programmet (designskisser)
- kolla upp frameworks till imorn
- databasen - framwork
- kolla upp hur man lägger ihop bilder till ett collage
- kolla upp grejer för att få lite koll
- fixa RAD denna veckan
- hur: diskussion, nån skriver
- börja på RAD idag onsdag
- use cases imorn torsdag
- nån ritar skisser
- nån letar frameworkds
- nån jobbar med git
- NAMN - hedgehog photo
- börja på RAD (se roadmap)
- tänka på use cases

Funktioner, UML, use cases, designförslag DENNA vecka
RAD först, sen use cases, sen uml
RAD ska in på tisdag 20:e mars
frågor till handledarmötet
handledarnas åsikter
google docs för länkar
