

Meeting Agenda - 20th March

Location: Linsen

Date: 20 th March

Time: 15:10

Facilitator: Florian

Secretary: *Barnabas*

Participants: Barnabas, David, Florian, Julia

1. Objectives

Domain model, RAD

2. Reports

We have fixed GIT, written on the RAD, Use Cases, Started implementing the DB, we have also continued to work on the imagemetadata reader. To sum it up our group now have gotten a better understanding of everything we checked last week. We also have a basic GUI skeleton up and running.

3. Discussion items

1. How do we do...?

We have...please see above (reports).

2. What to do...?

The plan for THIS and next week is to:

- *Get pictures to show up on our GUI.
- *Get pictures from the database. (beginning of next week?)
- *Finnish domain model.
- *Start on SDD.
- *Getting a 'proof of concept' map up and running.
- *Prepare question for the tutor on Thursday.

4. Outcomes and assignments for Wednesday

- Julia should.... work with databases (Derby).
- Barnabas should... work with databases (Derby).
- David should... work with the getting pictures to show on-screen.
- Florian should... work with the map implementation.

5. Wrap up

Next meeting is on Tuesday. We will meet on Wednesday.
