

# Meeting Agenda - 20th April

**Location:** Library

**Date:** 20th April

**Time:** 10:30

**Facilitator:** David

**Secretary:** *Julia*

**Participants:** Barnabas, David, Florian, Julia

## 1. Objectives

MVC - Connecting everything together, how, why?

## 2. Reports

DB is rewritten. Search almost done. Zoom exist. Filechooser is works and insert picture into the db. A first running version of the Map. GUI is briefly connected to the Model. Classloader is under construction, plugins as well .

## 3. Discussion items

### 1. How do we do...?

See reports.

### 2. What to do...?

The plan for THIS and next week is to:

- Get started with the SDD
- Flow diagram (push to repository)
- **JUnit - start writing test classes**
- Calendar
- Map
- Note
- Start wiring everything together, map, tagcloud, search.
- Plugins
- An idea, javadoc?

Our next running version should have:

## 4. Outcomes and assignments for us this and coming weeks.

- Julia should.... work with the calendar.
- Barnabas should... work with checking MCV, HMVC, fully implement the search,plugin.
- David should... work with the display of images and scale them, note.
- Florian should... work with implementing a fully working version of the map.

## 5. Wrap up

Next meeting Monday 23th April
