Meeting Agenda - 16th March

Location: 6207
Date: 16th March
Time: 13:20
Facilitator: *David*
Secretary: *Julia*
Participants: Barnabas, David, Florian, Julia

1. Objectives
No issues preventing us to continue so far.
Today: UML
Start writing some functions to next week.

2. Reports
We have fixed git, written on the RAD, User Cases.
For more info, see *Discussion items*.

3. Discussion items
   1.   How do we do...?

   We have...
   - ...written Use Cases
   - ...decided on which framework to use (to get the photos metatags)
   - ...decided to use Derby to connect our classes with the our database
   - ...written the domain model.

   2. What to do...?
   The plan for THIS and next week is to:
   - UML must be finished today.
   - Fix the image meta tags reader
   - Fix the database reader (ORM (?))
   - Start with the GUI

4. Outcomes and assignments for Wednesday
   UML MUST BE DONE!
   o Julia should.... work with databases and Derby
   o Barnabas should... work with databases and Derby
   o David should... work with the GUI, creating a skeleton.
   o Florian should... work with framework(metatags)

   General tasks for this week are:
   UML
   Work on the metatags classes
   Work on the GUI (paper prototype or GUI?)
   Work on databases

Use google docs for documents etc.

5. Wrap up
    Next meeting is on Tuesday.
